Mountain View, CA | (469) 952 – 8447 | sanjanavnkt20@gmail.com | [LinkedIn](#) | sanjanavenkat.com

Senior Product Designer with 3+ years of experience designing enterprise-grade web applications and AI-native experiences at JP Morgan Chase. Skilled at translating complex, high-stakes user problems into intuitive, high-fidelity UI and interaction design solutions with research, rapid prototyping, and cross-functional collaboration. Proven track record in concept development, systems thinking, and data-driven design, collaborating with engineering and product teams to build innovative experiences that drive measurable business impact.

EXPERIENCE

JP Morgan Chase (Home Lending), Senior Product Designer

Jan 2024 – Current

Marketing & AI Lead

- **Led AI personalization strategy** with data science and engineering; designed ML-driven behavioral segmentation and recommendation UI, **boosting CTR by 17%** and improving first-time visitor engagement through iterative visual design
- **Generated a 33% conversion lift** by uncovering a **conversion bottleneck** through funnel analysis; designed and tested multiple interaction flows and UI variants, aligning executives in a cross-collaborative workshop
- Built a modular, atomic design offer template **enabling zero design/engineer lift for new campaigns** and accelerated marketing go-to-market velocity by **3 sprints** strengthening the design system and component consistency across marketing surfaces.
- **Pioneered end-to-end UI and interaction model for Casey AI** (call/text assistant), orchestrating the conversation models, and conducting customer preference A/B testing and enabling **1,000+ customer calls to qualify and convert** high-value leads
- Explored **AI-first search interfaces** by defining use cases, **visual rebranding** and interaction principles for integrating LLMs (e.g., Gemini, ChatGPT) and positioning Chase as an AI-powered platform, shaping future-facing product direction.

Application & Fulfillment

- **Eliminated 10% drop-offs on employment page and mitigated credit concerns with multivariate testing and content strategy.**
- Designed complete **0-to-1 HELOC experience**: wireframes, high-fidelity UI mockups, end-to-end service design blueprint and a research-based rate tool **delivering 66% lead submit rate** and measurably improving user confidence

Paycom, Product Designer (Assoc.)

May 2023 – Dec 2023

- **Transformed HR workflows and pioneered VoC research** to replace fragmented HR workflows with a scalable project management tool; delivered wireframes, interaction flows, and high-fidelity prototypes in close collaboration with engineering
- **Operationalized Paycom's first component enhancement process** by learning atomic design, proposing global navigation improvements, advocating to leadership, and guiding engineering by influencing product roadmap

Dialexa EDU Mentorship, UX Designer

Jan 2022 – Apr 2022

- **Designed a gamified VR experience** to immerse users in Dallas' history and pitching a socially engaging approach to travel pitching product concept and user engagement strategy

SKILLS

Interaction Design, Visual Design, UI Design, Wireframing, High-Fidelity Prototyping, User Flows, Storyboarding, Accessibility & Inclusive Design, Design Systems, Atomic Design, Figma, Web Applications, Data Visualization, AI-Native UX, Conversational AI Design, LLM, AI Personalization, VoC Research, Usability Testing, A/B & Multivariate Testing, Behavioral Segmentation, User Research, Cross-functional Collaboration, Stakeholder Alignment, End-to-End Ownership, Agile/Scrum, Systems Thinking, B2B, SaaS

EDUCATION

The University of Texas at Dallas

Bachelor of Science in Psychology, Concentration in Design

Aug 2020 – May 2023

GPA 3.88/4.00
