Mountain View, CA | (469) 952 – 8447 | sanjanavnkt20@gmail.com | [LinkedIn](#) | www.sanjanavenkat.com

Senior Product Designer with 3+ years of experience designing enterprise-grade web applications and AI-native experiences at JP Morgan Chase. Skilled at translating complex, high-stakes user problems into intuitive, high-fidelity UI and interaction design solutions with research, rapid prototyping, and cross-functional collaboration. Proven track record in concept development, systems thinking, and data-driven design, collaborating with engineering and product teams to build innovative experiences that drive measurable business impact.

EXPERIENCE

JP Morgan Chase (Home Lending B2C), Senior Product Designer

Jan 2024 – Current

Marketing & AI Lead

- **Led AI-native personalization** and recommendation systems with data science, engineering, and behavioral segmentation, **boosting CTR by 17%** and improving first-time visitor engagement
- **Generated a 33% conversion lift** by uncovering a conversion bottleneck through funnel analysis and **rapid experimentation**, aligning executives in a cross-collaborative workshop earning **\$10k+ investment in marketing**
- Built a modular, atomic design offer template **enabling zero design/engineer lift for new campaigns** and accelerated **go-to-market velocity by 3 sprints** strengthening the design system and component consistency across marketing surfaces.
- Pioneered end-to-end design of Casey AI, an **omni-channel conversational AI** experience (call/text assistant), by conducting customer preference A/B testing, orchestrating conversation models, enabling **1,000+ customer calls to improve conversions**
- Concepted **AI-first search interfaces in a 1-week sprint** with visual rebranding and interaction principles for integrating LLMs (e.g., Gemini, ChatGPT) and optimizing GEO search for a **leadership pitch with CEO**, Jamie Dimon, for AI-powered experiences

Application & Fulfillment

- **Eliminated 10% drop-offs on employment page and mitigated credit concerns with multivariate testing and content strategy.**
- Designed complete **0-to-1 HELOC experience** including wireframes, high-fidelity UI mockups, **service design blueprint** and a research-driven rate tool **delivering 66% lead submit rate** and improving user confidence in complex financial workflows

Paycom (HR software B2B), Product Designer (Assoc.)

May 2023 – Dec 2023

- Redesigned **fragmented B2B enterprise SaaS workflows** into scalable project management experiences through **VoC research**, workflow optimization, and high-fidelity prototyping in close partnership with engineering
- **Operationalized Paycom's first component enhancement process** by learning atomic design, proposing global navigation improvements, advocating to leadership, and guiding engineering by influencing product roadmap

Dialexa EDU Mentorship, UX Designer

Jan 2022 – Apr 2022

- **Designed a gamified VR experience** to immerse users in Dallas' history and pitching a socially engaging approach to travel pitching product concept and user engagement strategy

SKILLS

Interaction Design, Native Mobile, Visual Design, Wireframing, High-Fidelity Prototyping, User Flows, Storyboarding, Accessibility & Inclusive Design, Design Systems, Atomic Design, Figma, Sketch/Adobe, Web Applications, Data Visualization, AI-Native UX, Agentic Workflows, AI Interaction Models, Conversational AI Design, LLM, AI Personalization, VoC Research, Usability Testing, A/B & Multivariate Testing, Behavioral Segmentation, User Research, Cross-functional Collaboration, Stakeholder Alignment, End-to-End Ownership, Agile/Scrum, Systems Thinking, B2B, B2C, SaaS, Service Design, React, Tailwind CSS, Vercel, AI-Assisted Coding

EDUCATION

The University of Texas at Dallas

Bachelor of Science in Psychology, Concentration in Design

Aug 2020 – May 2023

GPA 3.88/4.00
